# ADD GAME DDR4 | Spider 4

addGame series represents a high-performance overclocking memory, Spider 4. The Spider 4 Module is designed for high-performance overclocking and engineered for the latest AMD and Intel platforms. With speeds of up to 4600MHz paired with quick CL16-CL20 timings, the Spider 4 build with the finest components, feature with pure premium aluminum for faster heat dissipation, and tested under the most stringent conditions. The Spider 4 is available in multiple speed and capacities, giving heavy gamers and PC enthusiasts to build a new performance system.

MEMORY	DDR4
MODULE TYPE	UDIMM
SPEEDS (MHZ)	2666, 3200, 3600, 4000, 4400, 4600MHz
LATENCY	CL16, CL17, CL18, CL19, CL20
VOLTAGES	1.2V/1.35V, 1.45V, 1.5V
MODULE CAPACITIES	8GB, 16GB, 32GB
PACKAGE	Single and Dual Cannel Kits
LOW PROFILE	36mm Hight
HEATSINK	Superior Aluminum heat spreader
WARRANTY	Limited Lifetime

Premium Aluminum  
heat spreader
